Education

UCLA | Bachelor of Science, Biology

Professional Experience

Ecom Products Group

Ontario, CA | April 2019 – August 2019

Lead Web Developer

PHP7, MySQL, PDO, HTML5, CSS3, Mobile Responsive, Node.js, Gulp, ECMAScript 6, jQuery, Google Fonts CDN, normalize.css, animate.css

- Created custom Content Management System (CMS) single-handedly from ground-up, utilizing MySQL Database, Object-Oriented PHP 7.3, HTML5, CSS3, ECMAScript 6.
- Established all navigation menus and content be [ADA](#) Compliant in all web applications.
- Managed DNS, Email, FTP, shell accounts, MySQL databases, security and site backups.
- Produced mobile responsive web applications with custom breakpoints to fit on all devices and screen orientations.
- Constructed PHP scripts to generate dynamic favicons for each page of the web application.
- Formed system to automatically concatenate, mangle, and minify, all HTML, scripts, and CSS for efficient load time and minimal HTTP Requests.
- Constructed JavaScript functions in conjunction with AJAX to handle complex form validations, SPAM control, and dynamic UX/UI elements.
- Advised on proper hardware to buy for both Ethernet and Wireless networking.
- Designed and implemented security programs to protect all websites from SQL injection attacks.
- Strong grasp of security principles and how they apply to E-Commerce applications.
- Followed UX guidelines to build applications that are responsive/mobile compliant, cross-browser compatible and followed general web functions and standards.

Dual Language Schools

Los Angeles, CA | October 2017 – April 2019

IT Manager & Lead Developer

PHP7, MySQL, PDO, HTML5, CSS3, Mobile Responsive, Node.js, Gulp, jQuery, Google Analytics, Google Maps API, Google Fonts CDN, normalize.css, animate.css, Geo Location

- Managed team of graphic and web designers in the design and coding for all of the company's digital assets such as web experience, landing pages, banner ads, infographics, whitepapers and e-books
- Collaborated with outsource developers, reviewed the return of code, and managed the in-house team to modify/sanitize/implement code to complete projects.
- Built multiple HTML email templates and email distribution system for a weekly newsletter in various groups within MailChimp.
- Researched and integrated new technology, security patches, and version updates to keep up with new standards.
- Established all navigation menus and content be [ADA](#) Compliant in all web applications.
- Constructed scripts reducing and eliminating spam/bot traffic, thus reducing company costs on hosting, and assembling reliable analytics on real user data.
- Created a secure and private company online project management application, terminating costs to services such as monday.com.

Clairmont Camera

North Hollywood, CA | January 2014 – September 2017

Web Developer

PHP (OOP), MySQL, PDO, HTML5, CSS3, Mobile Ready, jQuery, Google Analytics, reCaptcha, Font Awesome, Google Fonts, normalize.css, modernizr.js

- Created MySQL database to hold product information for hundreds of products including cameras, lenses, filters, and other camera equipment/accessories.
- Migrated static HTML site to Object-Oriented PHP for dynamic content.
- Developed mobile-ready content to respond fluidically to all devices and screen sizes.
- Optimized site photos for faster load times and less server requests.
- Integrated social media and Open Graph data for "sharing."
- Placed relevant meta-data and shema.org information for search engine placement.
- Reprocessed videos to be placed on site as HTML5 video and cross-browser compliant.

Project Experience

Please Keep Breathing

Moreno Valley, CA | October 2018 – Ongoing

PHP7, MySQL, PDO, HTML5, CSS3, Mobile Responsive, Node.js, Gulp, ECMAScript 6, jQuery, Google Fonts CDN, normalize.css, animate.css

- Engineered web application and content management system with freehand PHP, MySQL, HTML5, SCSS, and ECMAScript.
- Set up Client Web Server on Linux platform for use of software application in client location.
- Worked with various Application Protocol Interface ranging from payment methods to social media and communication to meet client needs.
